On Thursday, December 12th "Customs of Thailand" was presented at the Owsley County Extension Service by Luke Fries, Breathitt County FCS Agent-at-Large. Luke shared his experiences from Thailand where he served as a Peace Corps Volunteer. We also learned about the Kingdom of Thailand, it's people, culture, traditions and customs. We also got to taste sticky rice which is a staple there in Thailand. This was a wonderful presentation and everyone truly enjoyed learning about Thailand and Luke's experiences.

# Christmas Present Crash

Monday morning at approximately 11 am, Joseph Mauck was driving his wife's new 2013 Dodge Charger, which was her Christmas present from him. He was traveling on Rose Road toward 1411 from helping a buddy trim around the Sam Barrett Graveyard. Mauck was going to get his work truck when he smelled smoke, looked down and saw it coming from under the dash. As he was looking down at the smoke, he ran the car over a deep embankment into the creek where the car immediately burst into flames and was completely destroyed. Owsley County Deputy Sheriff Ivan Fletcher, Booneville City Chief of Police Johnny Logsdon, Fire and Rescue Jason Jackson and Eric Deery worked the accident.

# OUTDOOR TRUTHS

by  
GARY  
MILLER

If you have been fishing long enough, you have got a story to tell about a motor breakdown and how you had to paddle all the way back to the dock. I can remember two of these episodes and the order of events is always the same. You're several miles from the dock and the big motor quits. You use the trolling motor until the batteries run dry and then you skull with a paddle the last mile from the front of the boat. If you were catching fish there would be three other boats in the hollow that you're in. But when you really need help there is not another one within a hundred miles. And then there is the wind. How come you always have a head wind when you're in these situations? I guess it's just part of the trial. I've also noticed this dilemma has no respect for the brand of boat you own. Whether it's a Ranger, a Nitro, a Basstracker, or a Jon boat, there is going to come a time that the most important piece of equipment that you have will be a paddle.

I'm reminded of a story in the Bible. The men in this boat had no Mercury or Evinrude or Johnson. They knew nothing about horsepower; only manpower. The Bible says that Jesus was on the bank and saw they were in serious trouble, rowing hard and struggling against the wind. Later that night he walked out on the water and saved them. The lesson for them is also the lesson for us. Some of you are rowing hard and struggling against the wind. That wind may be one that is coming from disaster, disappointment, discouragement, depression, or a host of other things. It may be blowing against your family or your finances. But it's real and it's serious. Let me encourage you by telling you that the Lord sees and he cares. There is no obstacle that can keep Him from getting to you. He may not come when you think He ought to, or He may allow you to go through more than you think you can stand, but remember, He always has one hand on the thermostat and the other on the timer. And just when you think that you can't paddle any longer, He will come walking on the water.
